

NAVY SURVEY OF LAND 1936, 1937

Ben Sanchez

90-3-76

! How did the Navy conduct the survey? what was the purpose of it?

Things to look into:

- shape of the way lands were surveyed i.e. in Cetti; it seems the Navy made an arbitrary rule of the shape of the land parcels.

Was the purpose of the survey to limit movement of the people?

Was the purpose to avoid conflict over land's claims within the families?

Interesting enough the Navy surveyed agricultural land and accessible land areas. "
